EXECUTIVE SUMMARY

A motivated B.Tech Information Technology student at Sri Krishna College of Engineering and Technology (SKCET), Coimbatore, with strong foundations in object-oriented programming, data structures, and full-stack web development. Proficient in C++, Java, Python, and SQL, with hands-on exposure to cloud technologies through AWS and real-world internship experience at Amazon and CodSoft. Passionate about designing and delivering scalable, impactful software solutions and continually adapting to evolving industry technologies.

TECHNICAL SKILLS

Programming Languages: C++, Java, Python, SQL
Web Technologies: HTML5, CSS3, JavaScript
Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms
Cloud & Tools: AWS Basics (EC2, S3, Generative AI), Git & GitHub, VS Code
Databases: MySQL, SQL

SOFT SKILLS

- Effective Communication
- Analytical Problem Solving
- Team Collaboration
- Leadership & Initiative
- Adaptability
- Attention to Detail
- Multilingual: Tamil (Native), English (CEFR C1)

PROFESSIONAL EXPERIENCE

Software Developer Intern — **Amazon** *May 11, 2026 – Jul 3, 2026*
World Trade Centre, Perungudi, Chennai

- Contributed to the development and enhancement of internal tools and services within an Agile engineering environment, collaborating closely with senior engineers on production-grade systems.
- Designed, implemented, and unit-tested new backend features, maintaining code quality through structured peer code reviews and adherence to software engineering best practices.
- Diagnosed and resolved critical bugs in live systems by analysing logs and tracing root causes, leading to measurable improvements in system stability and performance.
- Participated in daily stand-ups, sprint planning, and retrospectives, gaining practical experience with Agile/Scrum workflows in a fast-paced enterprise setting.
- Collaborated cross-functionally with product managers, QA engineers, and design teams to align feature deliverables with business requirements and ensure on-time, high-quality releases.

Web Development Intern — **CodSoft** *Jun 5, 2025 – Jul 5, 2025*
Virtual / Remote

- Designed and developed responsive, user-friendly web interfaces using HTML5, CSS3, and JavaScript as part of a 4-week intensive virtual internship programme.
- Applied UI/UX design principles to build accessible, cross-browser-compatible layouts that enhanced user experience across multiple project deliverables.
- Translated design mock-ups into clean, maintainable front-end code, demonstrating strong proficiency in web technologies and attention to visual detail.
- Received recognition for consistent delivery of well-structured code and exceptional dedication throughout the internship duration.

PROJECTS

Tic Tac Toe Application | Tech Stack: *Java, OOP, Swing*

- Developed a fully functional desktop Tic Tac Toe game in Java, applying core OOP principles — inheritance, encapsulation, and polymorphism — throughout the design.
- Built an intuitive graphical user interface using Java Swing with real-time win/draw detection logic, providing a smooth 2-player gameplay experience.
- Designed a modular architecture separating game logic, UI, and state management — enabling clean, maintainable, and easily extensible code.
- Incorporated robust error handling and edge-case management, ensuring reliable behaviour across all possible board states.

Web Calculator | Tech Stack: *HTML5, CSS3, JavaScript*

- Built a responsive web calculator supporting arithmetic operations, percentage calculation, and positive/negative toggling using vanilla JavaScript — no external libraries.
- Designed a mobile-friendly, visually clean interface with smooth button interactions using CSS Flexbox and consistent cross-browser styling.
- Implemented keyboard input support ensuring usability across all major browsers and screen sizes without additional dependencies.

Student Grade Management System | Tech Stack: *Java, MySQL, JDBC*

- Designed and built a console-based system enabling full CRUD operations on student records, grades, and academic performance data.
- Integrated Java with MySQL via JDBC, implementing database transactions to maintain data integrity during concurrent record updates.
- Automated report generation for subject-wise averages, class rankings, and performance summaries — eliminating manual tabulation effort.

CERTIFICATIONS

- **C++ Data Structures in the STL** — Coursera Project Network *Apr 2025*
- **Problem Solving (Basic)** — Hacker Rank *Jun 2025*
- **Introducing Generative AI with AWS** — Udacity *Jun 2025*
- **AWS Educate – Machine Learning Foundations** — Amazon Web Services *2025*
- **FLY-Scholar Program (Finding the Leader in You)** — Competitiveness Mindset Institute, USA *Oct 2025*
- **Learn English+ CEFR B1 Level** — English Helper *Aug 2025*
- **Learn English+ CEFR C1 Level** — English Helper *Dec 2025*
- **The Modern C++ Challenger** — Infosys Springboard *2025*
- **Unified Modelling Language (UML)** — Infosys Springboard *2025*
- **Programming using Java** — Infosys Springboard *2025*
- **Database and SQL** — Infosys Springboard *2025*

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- **FLY-Scholar Program:** Completed the CMI USA leadership programme developing Conscientiousness, Innovativeness, Taking Initiative, Perseverance, and Problem Solving through a structured mindset curriculum.
- **English Proficiency C1:** Achieved CEFR C1 Advanced English (Dec 2025) — a measurable leap from B1 (Aug 2025) in just four months, demonstrating rapid learning and professional communication capability.
- **District-Level Athlete:** Competed at district level in Table Tennis, showcasing discipline, mental agility, and strategic teamwork under high-pressure conditions.
- **NCC Cadet:** Served as an active NCC cadet, developing strong leadership, community service orientation, and national responsibility through structured drills and social initiatives.
- **Hacker Rank Certified:** Passed the Problem Solving (Basic) certification, validating proficiency in algorithmic thinking and data structures at a recognised industry benchmark.

EDUCATION

Bachelor of Technology — Information Technology *Expected: 2028*
Sri Krishna College of Engineering and Technology (SKCET), Coimbatore **CGPA: 8.25**

Higher Secondary Certificate (HSC) *Completed: 2024*
Sri Krishna Matriculation Higher Secondary School, Oddanchatram **Percentage: 94.1**
